

Lesson Plan

Nature Collage Art

Summary

1. Activity type: ☐Game ☒Craft ☐Activity
2. Topic or Unit of Study:
3. Objective:
 - Encourage creativity using natural materials.
 - Develop fine motor skills through cutting and gluing.
 - Foster appreciation for nature and outdoor exploration.
 - Promote teamwork and sharing when gathering materials
5. Age Group: 6-8 years old
6. Location: Outdoors (park, campgrounds, or garden area) and indoor craft space (tables and chairs).
7. Materials:
 - Construction paper or cardboard (as the base)
 - Glue sticks and liquid glue
 - Child-safe scissors
 - Natural materials (leaves, flowers, twigs, pebbles, grass)
 - Markers and crayons
 - Small baskets or bags for collecting nature items

Instructions

1. Game/ Ice breaker (5min) -
 - a) Go around a circle and introduce yourself and your hobby/ favorite thing to do.

- 
- b) Game of telephone: one person in the circle starts with a phrase and is whispered around the circle and the last child says out loud what they heard.

2. Introduction to activity (5 min): Gather the group and explain the activity. Show an example of a finished nature collage.

3. Nature Hunt (15 min): Go outside and let the children collect natural materials. Remind them to pick items already on the ground (no picking live plants).

3. Design Time (20 min): Return indoors. Give each child a base sheet. Encourage them to arrange their materials before gluing.

4. Create (20 min): Assist children with gluing their items onto the base. They can add drawings and color around the collage to complete their art.

5. Show & tell (10 min): Let children show their collage to the group and talk about what they found and created.
